- Meetings: Kickoff, two interviews, findings review
- Implementation: No production implementation; one proof-of-concept outline
- Training: 60-minute owner briefing
- Support: 7 days of email clarification
- Exclusions: Software licenses, production integrations, regulated decision automation
- Price: \$2,500
- Deposit: \$2,500
- Upgrade: Credit \$1,000 toward O2 or O3 if signed within 30 days

Workflow Build Sprint

- Client: One department; up to 2 medium-complexity workflows and 10 users
- Problem: Bottlenecked, inconsistent, or ungoverned knowledge work appropriate to this scope.
- Deliverables: Workflow designs, configured solution, test evidence, SOPs, prompt library, admin handoff
- Duration: 4 weeks
- Meetings: Kickoff, weekly build reviews, training, launch review
- Implementation: Included for approved tools and client-owned accounts
- Training: Two 90-minute sessions
- Support: 14 days post-launch
- Exclusions: Custom enterprise software, migrations, 24/7 support, regulated autonomous decisions
- Price: \$7,500
- Deposit: \$3,750
- Upgrade: Apply reusable assets toward O3; transition to O5

AI Operations Transformation

- Client: Up to 3 departments, 5 workflows, 30 users
- Problem: Bottlenecked, inconsistent, or ungoverned knowledge work appropriate to this scope.
- Deliverables: Blueprint, implementation plan, implemented workflows, governance pack, training, ROI baseline, final handoff

- Duration: 8-10 weeks
- Meetings: Kickoff, weekly steering, department workshops, launch, executive review
- Implementation: Included within agreed systems and complexity budget
- Training: Owner, manager, employee tracks; four sessions total
- Support: 30 days post-launch
- Exclusions: ERP replacement, unscoped data cleanup, custom mobile apps, legal compliance certification
- Price: \$18,000
- Deposit: \$7,200
- Upgrade: O5 support or O4 expansion

Enterprise AI Operations Program

- Client: Up to 6 departments, 12 workflows, 100 users; custom scope above this level
- Problem: Bottlenecked, inconsistent, or ungoverned knowledge work appropriate to this scope.
- Deliverables: Portfolio roadmap, governance, implementations, change management, train-the-trainer, ROI dashboard
- Duration: 16-20 weeks
- Meetings: Executive steering biweekly; workstream sessions weekly
- Implementation: Phased implementation with security and acceptance gates
- Training: Role-based plus internal champion certification
- Support: 60 days post-launch
- Exclusions: Third-party license fees, extensive data engineering, formal legal/security attestations
- Price: \$45,000
- Deposit: \$13,500
- Upgrade: O5 Enterprise support; separately scoped expansion

Workflow Assurance & Enablement

- Client: Up to 8 support hours, 2 minor workflow changes, monitoring review
- Problem: Bottlenecked, inconsistent, or ungoverned knowledge work appropriate to this scope.
- Deliverables: Health report, issue log, improvements, office hours, quarterly value review
- Duration: Monthly; 3-month initial term
- Meetings: Monthly operations review plus office hours
- Implementation: Minor changes only; major work quoted separately
- Training: Monthly office hours
- Support: Business-hours response: 1 business day critical, 2 standard
- Exclusions: Net-new systems, 24/7 monitoring, unlimited revisions
- Price: \$2,500
- Deposit: \$2,500
